

21 November 1968

MEMORANDUM FOR THE RECORD

Morning Meeting of 21 November 1968

25X1  
DD/I drew attention to today's Wall Street Journal article discussing the pros and cons of [ ] Cambodia study.

25X1  
25X1  
Godfrey advised that it appears that the Nyerere move in Zanzibar was a show of force to indicate who is the head man.

D/ONE provided a BNE memorandum entitled Moscow and the Fedayeen.

ADD/S advised that the commercial circuit between Cairo and the United States has been out for two days and that the cause of the failure is undetermined.

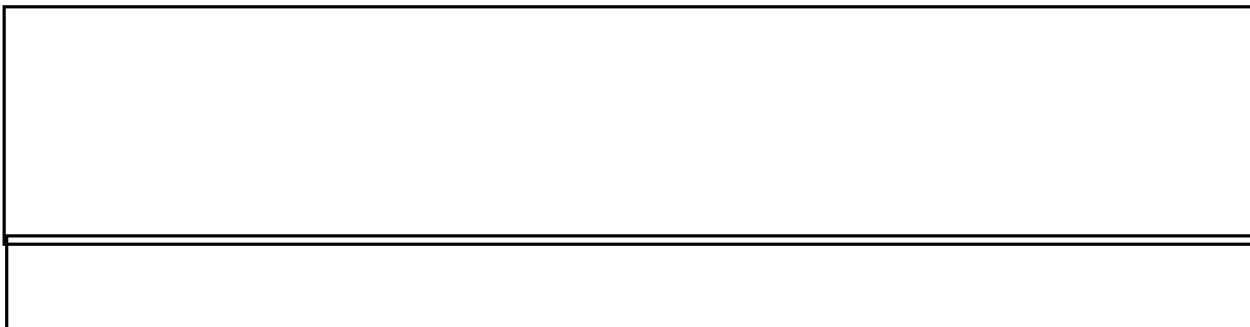

ADD/S reported that our recruiter was blocked from entry to the administration building at Notre Dame yesterday.

Carver advised that there have been thirty-seven violations of the DMZ by the enemy in the last twenty-four hours.

Carver advised that he may have been able to derail the letter drafted by Paul Warnke's deputy requesting an intelligence community study of the enemy logistics network in Laos and the effectiveness of our bombing in Laos.

Maury reported that Senator Russell is touring military installations in the Caribbean.

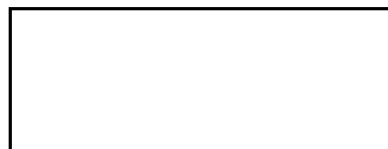

DD/S&T reported that there was an SR-71 flight last night over North Vietnam.

DDCI advised that he has just received comments from the Eachus Committee on the NIRB study on the  system.

\*The Director asked Godfrey to prepare a paper on Zanzibar, including a discussion of what the Chinese, Soviets, and East Germans are up to on the island.

The Director noted that he received a very useful briefing from Ed Allen on the monetary crisis, and the DD/I remarked that he is having prepared an explication of the current crisis as well as a study of the longer term implications of continuing crises for the international monetary system.

L. K. White
